

E - COMMERCE PROPOSAL

AWM

ALL WEAR MODE

*A premium online store for men's and women's fashion,
designed and engineered as one seamless experience.*

PREPARED BY

Hamza Haroon

Full-Stack Developer & Graphic Designer

DATE

October 2026

Valid for 30 days

EXECUTIVE SUMMARY

A store worthy of the AWM name.

AWM - All Wear Mode deserves an online presence as confident as its clothing. This proposal outlines a complete, custom-built e-commerce website with a modern, fast and mobile-first shopping experience, from the first scroll through the homepage to the order arriving at the customer's door.

Every part of the store, the visual identity, the storefront, the checkout and the management panel, is designed and built by one person. The result is a single, cohesive product with no gaps between design and engineering.

THE SHOPPING EXPERIENCE

01 Browse with ease

Men's and Women's sections for T-shirts, shirts, pants and trousers, casual and streetwear, with New Arrivals and Trending collections front and centre.

03 Buy with confidence

Cart, wishlist, simple checkout, Cash on Delivery and secure online payment, with live order tracking afterwards.

02 Find the perfect piece

Instant search, filters by size, colour, price and category, and sorting by newest, price or popularity.

04 Run it effortlessly

A powerful admin panel to manage products, stock, orders, payments and customers from any device.

WHAT IS INCLUDED

Everything a modern fashion brand needs.

01

Men's & Women's Stores

Separate, beautifully organised sections with clear category navigation and curated Trending and New Arrivals collections.

02

Rich Product Pages

Image gallery with zoom, sizes, colours, prices, full descriptions and real-time stock availability.

03

Search, Filters & Sorting

Fast search with filters for size, colour, price and category, plus sorting that helps shoppers decide quickly.

04

Cart, Wishlist & Checkout

A frictionless path to purchase for guests and members, with coupon codes and saved favourites.

05

Payment Options

Cash on Delivery and secure online payment, so every customer can pay the way they prefer.

06

Customer Accounts

Sign-up, saved addresses, order history and live order tracking that keeps customers informed.

07

Admin Panel

Manage products and variants, inventory, orders, payments and customers, with a clear sales overview.

08

Mobile-First Design

Crafted for the phone in the shopper's hand, then scaled elegantly to tablet and desktop.

09

Security & Visibility

SSL protection, hardened admin access, search-engine optimisation and social media integration.

INVESTMENT

Website development, itemised.

MODULE	WHAT IS INCLUDED	PKR
Brand & UI/UX Design	AWM identity applied across the store, style guide, mobile and desktop designs	35,000
Storefront	Home, Men's, Women's, New Arrivals, Trending, product pages, search, filters, sorting	60,000
Cart, Wishlist & Checkout	Saved wishlist, guest and member checkout, coupons	40,000
Accounts & Order Tracking	Sign-in, profile, addresses, order history, live status tracking	30,000
Payment Methods	Cash on Delivery plus one secure online payment option	30,000
Admin Panel	Products, sizes and colours, inventory, orders, payments, customers, reports	75,000
SEO & Social Media	Search optimisation, sitemap, analytics, social links and sharing, ad tracking	20,000
Security & Launch	SSL, hardening, multi-device testing, go-live, admin training	20,000
Total development investment		PKR 310,000

Approximately USD 1,100 at PKR 280 per USD. This is a one-time fee. Fees charged by online payment providers are billed by those providers directly.

DOMAIN, HOSTING & CARE

Launch-ready, and kept that way.

ITEM	YEAR 1 (PKR)	RENEWAL (PKR)
Dot-com domain name	5,000	6,000
Business cloud hosting with daily backups and email	30,000	36,000
SSL security certificate	Included	Included
Domain and hosting total	35,000	42,000

MAINTENANCE PLAN - OPTIONAL

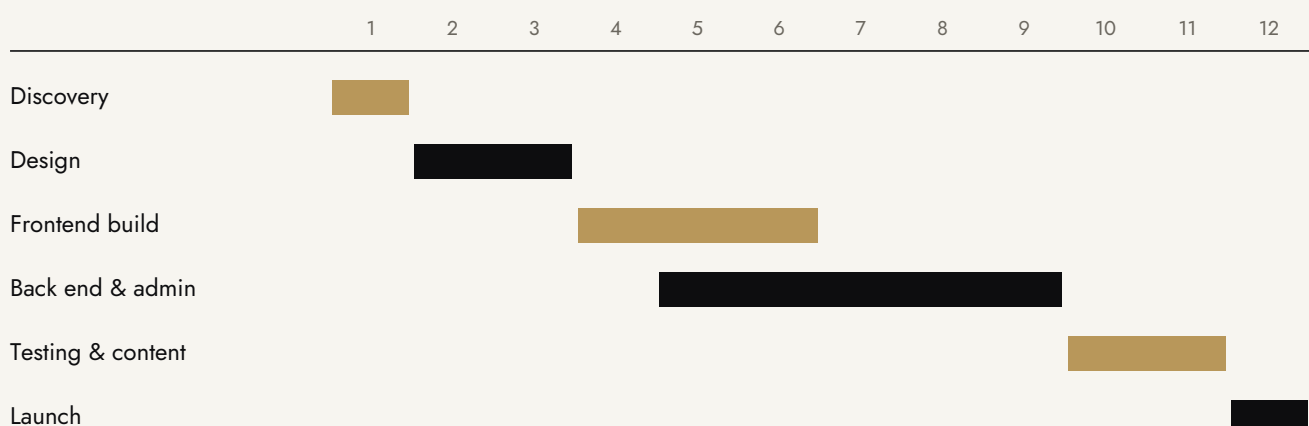

PKR 10,000 / month

or PKR 100,000 per year

Security updates, backups, uptime monitoring and up to 4 hours of changes each month. The first 30 days after launch include free support.

Domain and hosting are approximate market rates, passed on at cost, and registered in AWM's own name.

PROJECT TIMELINE - 10 TO 12 WEEKS

OWNERSHIP & GROWTH

Everything you build belongs to you.

Complete source code

The full code, database and design files are transferred to AWM at handover.

Your own accounts

Domain and hosting are registered in AWM's name, with every login handed over.

Training & guide

A hands-on admin walkthrough and a written guide for your team.

No lock-in

Any developer can maintain the store later. Ongoing care with me is optional.

OPTIONAL ADD-ONS

Courier integration with automatic shipment tracking	PKR 25,000
Instant order notifications by message	PKR 15,000
Product data entry, up to 100 products	PKR 15,000
Social media kit and promotional banners	PKR 20,000
English and Urdu language support	PKR 30,000

THE DEVELOPER

Hamza Haroon

Full-Stack Developer & Graphic Designer

Hamza builds sophisticated, high-performance web stores end to end: the interface customers love, the engine that runs the checkout, and the tools that keep a business moving every day.

By translating complex brand identities into responsive, optimised digital experiences, he makes sure the logo, colours and character of a brand arrive intact in every product page, every email and every order.

NEXT STEPS

- 1 Confirm the scope and any add-ons.
- 2 Share the AWM logo and brand colours.
- 3 Choose your preferred dot-com name.
- 4 Kick-off, with launch in 10 to 12 weeks.
