PROFILE

Website and App Developer from Karachi with 3+ years of designing, building and launching digital products. Seven live websites across healthcare, online shopping, fintech, career tech and pet care, from full stack MERN and PHP platforms with logins, roles and dashboards to a live online store. Now building VaultFlow 360, a finance app for iOS and Android. I bring UI design and engineering together to ship fast products people enjoy using.

SKILLS

Front end	HTML, CSS, JavaScript, React, Bootstrap, jQuery, GSAP, responsive and mobile first layouts
Back end	Node.js, Express, MongoDB, PHP 8, MySQL (PDO), REST APIs, JWT authentication
Mobile	React Native, Expo (iOS and Android), Wear OS watch faces (Watch Face Format)
Tools	Git, GitHub, Vercel, Android Studio, Expo EAS, Apache
Design	UI design, brand identity, Photoshop, Canva

WEBSITES 7 LIVE

PathSeeker — FULL STACK

Career guidance platform that matches ten questions against 38 careers, explains every match and maps a clear route into the job in six stages.

careerpassporttw.vercel.app · React · Node.js · Express · MongoDB

CARE Group — FULL STACK

Doctor appointment portal with patient, doctor and admin roles, specialist search by city and live availability booking.

care-pk.infinityfreeapp.com · PHP 8 · MySQL · JavaScript

FurShield — FULL STACK

Pet care platform for owners, vets and shelters: health timelines, records, vet bookings, adoption listings and email reminders.

furshiel.vercel.app · React · Node.js · Express · MongoDB · JWT
